

# EPSON SureColor SC-S50610

The super-fast Epson SureColor SC-S50610 maximizes productivity, helping busy commercial printers, POS printers, professional signmakers, digital copy shops, screen printers and photo labs to increase their wide-format throughput.

Designed to deliver a very high level of efficiency, the SC-S50610 uses two Thin Film Piezo printheads, running two sets of CMYK and white ink simultaneously, to print at speeds in excess of 50m<sup>2</sup>/hour. A built-in dryer ensures prints are ready quickly and, for high productivity applications, an additional drying system is available as an option.

Sustained high workloads are accommodated with ease thanks to the printer's ergonomic design and time-saving features. Loading a new roll is a one-person job using the jack system at the rear, and the media loading lever is conveniently accessible from both the front and rear of the printer. Heavier rolls up to 80kg can be easily accommodated using the printer's optional heavy-roll supply system. Once the substrate is loaded, the SC-S50610 automatically optimises media handling and printhead alignment for the media type, and automatically adjusts the substrate tension to enable accurate media feeding.

The SC-S50610 can produce everything from posters, signs, banners, textiles, backlit panels, window displays and POS to vehicle wraps, interior decorations, labels and exhibition displays. Users can reliably and cost-effectively print on a wide range of popular signage substrates, at up to 64-inch (162.6cm) width. The 5-colour model can produce high-quality white prints on both dark and transparent substrates. Prints are lightfast for three years outdoors without lamination\*.

As Epson's UltraChrome GS2 Ink is odourless and nickel-free, the SC-S50610 is kinder to the environment, and can be used in an office as special ventilation is not required. To further reduce environmental impact, plus energy bills, the printer is power efficient and ENERGY STAR-qualified.

## PRODUCT SPECIFICATIONS

<b>PRINTING TECHNOLOGY</b> Printhead	MicroPiezo Advanced TFP
<b>PRINT RESOLUTION</b> Maximum resolution	1440×1440 dpi
<b>INK SYSTEM</b> Ink Colour Ink cartridge	Epson UltraChrome GS2 CMYK 700ml
<b>PRINT SPEED</b>	720×720 2pass 29.4m <sup>2</sup> /h 720×720 4pass 15.0m <sup>2</sup> /h 720×1440 6pass 10.1m <sup>2</sup> /h 720×1440 8pass 7.3m <sup>2</sup> /h
<b>PAPER HANDLING</b> Roll media dimension Maximum print area Print Margin	Diameter: 250mm, Width: 300-1625.6mm (64 inches) 1615.6mm 5mm for each sides / 10mm for each side (when you use paper holder plate)
<b>CONTROL PANEL</b>	LCD screen
<b>CONNECTIVITY</b> Wired connection	Hi-Speed USB, 100BASE-TX/1000BASE-T
<b>MEMORY</b>	Main: 512MB, Network: 128MB
<b>DIMENSIONS</b> Dimension (W×D×H)	2620×963×1311(Storage take-up reel) 2620×1259×1311(Open take up reel and raise jack lever)
<b>SOFTWARE</b>	Communication Driver, Online Guide, LFP Remote Panel 2, EpsonNet Config
<b>ELECTRICAL SPECIFICATIONS</b> Voltage	AC 100-240V 50/60Hz
<b>OPTIONS</b> Additional Print Drying system Heavy Roll Media System Waste Ink Bottle Maintenance Kit Ink Cleaner	
<b>WARRANTY</b>	Standard 1-year onsite service
